

Kenlife Resort Network - Member Handbook

How to join, participate, protect privacy and get value from the Network.

Edition	R8.9.57 - 27 August 2026
Audience	Approved and prospective Network members
Current source	www.kenlife.co.ke/resort-network and the connected Kenlife Network account

One identity. Connected journeys. Controlled documents.

The Resort Network uses the same verified Kenlife identity and connected journey model as the website and KeDOS. Registration moves through Identity -> Profile & Privacy -> Review -> Submit Network Profile. Members then use the Network account for forums, opportunities, introductions, sponsorship and controlled documents.

Joining

- Complete Identity, then Profile & Privacy, then Review.
- Submit Network Profile appears only at the final step.
- Use a flexible County / Region / State / Area field; Kenya counties are suggestions, not a rigid limitation.
- Keep profile information accurate and update visibility/contact choices when they change.

Forums and opportunities

- Register through the published forum/event journey.
- Use the app/QR/pass shown for the event where enabled.
- Do not treat an introduction or opportunity as a Kenlife guarantee or endorsement unless explicitly stated.

Conduct and privacy

- Use Network information for the purpose for which it was shared.
- Do not scrape, resell or mass-export member information.
- Respect opt-outs, confidentiality and professional boundaries.
- Report abuse, misrepresentation or safety concerns through the controlled Kenlife route.

Need the current version?

Use the Resort Network Documents area on kenlife.co.ke. Downloaded copies can become outdated when a controlled edition is revised.
